INSPIRATION

Oriental inspired cuisine

After a trip to Japan, our team was inspired by the philosophy and cooking techniques of local dishes. We also invited a successful chef from Sapporo to St. Petersburg, who held a culinary master class for our cooks, which gave even more energy and ideas for rethinking the cuisine and a creative approach to the work of Eurasia. Having come into contact with the atmosphere of Japan, we tried to find new solutions, which we are happy to share with you.
